Hirsche Family at Cow Palace in High River (for 24 of 45 years of sales)

It's been quite a ride. Where, oh where, has the time gone. In June of 1979, I married my dear bride, Annette. We were both at University in Utah. We came home that summer to work for a year and then go back to school and finish my degree in sociology. Floyd and Bev Anderson offer us a job as a herdsman and gave us FA Britisher Lady 46K, a bred heifer as a bonus if we would stay. The rest is history as we never went back to University. The next fall, we went to Bell L Herefords and purchased our second heifer, Bell L 88L. Those 2 cows were the start of Hirsche Herefords. We stayed with the Andersons till 1983 and then left and started on our own in Fort Macleod. We continued as a consignor in the Anderson yearly production sale for 4 more years at which time we started having our own sales. This sale will mark 45 years of production sales.

Since then we have raised, shown, promoted and sold Hereford cattle all around the world. Alot of our best friends are fellow breeders. We love this great breed and have been privileged and blessed to raise, show and sell some of the breed's best, GH Neon, GH Rambo, GH Buck, GH Simba, GH Galaxy, GH Rawhide, GH Top Gun, GH Nitro Design, GH Eclipse, GH Blockbuster and many more. All of these have been used around the world. These sires have raised champions in the US, Sweden, Austrailia, New Zealand, Denmark, Ireland, England, Uruguay, Mexico and Canada. Just this spring, a Blockbuster son (Hulk 75N owned by Ganaderia Gustavo Pedero/Hereford) was named Champion during Congreso de Las Estrellas in Mexico. We've been honoured to show many Supreme Champions including 2 at Agribition and one at the Calgary Stampede. It is humbling to see the influence our genetics, both ones we've raised and others we've purchased go on and help move the Hereford breed along to where it is today. We love our cattle and the great friends we have made throughout the industry worldwide.

As mentioned on our Junior page, we're not quitting, just trying to slow down and continue to help our juniors and customers promote and market these genetics. We want to do what we can to help those that purchase our genetics and support our program. We will continue to have our annual sale each year with any consignor that has our genetics. We are excited to have several guest consignors join our sale again this year and are pleased with the cattle they have on offer. We are especially excited to have Kevin Aitken (Maple-Dale Farms) bring his herd from Ontario to Alberta this spring and work together with our operation. He has several outstanding lots in this sale.

Special thanks to Balog Auction. Bob's one of our dearest friends and greatest ambassador for the Hereford Breed. Bob has sold every sale we've had. THANKS BALOG AUCTION!

Now about the 2026 offering. For 45 years, our focus has never really changed. We want performance, maternal (Udder quality) soundness and cattle that will be profitable and contribute to our beef industry. We believe in carcass, We've proud to say we've used every tool accessable from the beginning to help achieve these goals. We've used EPDs, Ultrasound (for 40 years), DNA testing and visual assessment. I can say without a doubt, that these young cattle in this offering are by far some of the best we've every raised. They have maternal, performance, carcass and soundness like I have never had. We truly invite all our friends and customers to share in our joy, Dec. 4, 2026 in Taber Alberta. Only 20 miles from where we started Hirsche Herefords in 1979. WOW

We're not sure what the future will bring, but we're thankful for the past and look forward to helping promote this great breed till the good Lord says, "You're Done." Thanks to all.

**All Marketing Agents listed on page 8 will be available with phones sale day.

TERMS & CONDITIONS:
Guarantee: Standard Canadian Hereford Association guarantee applies. We do however, follow up on all animals sold to ensure satisfaction.

Health: The Herd is maintained in a TB and Brucellosis free area and Cowherd is annually vaccinated for IBR, P13, BVD, BRSV and Vibrio. All Sale bulls have been treated with Ivermectin. All Long yearling bulls will be semen tested.

Terms: Cash Sale day unless arrangements have been made with Grant and Annette. We will make every effort to accommodate your needs. Cattle become the responsibility of the buyer after purchase.

Sight Unseen Program: Call and let us help select the right animal for your needs. We guarantee the best possible animal for the best possible price. If you aren't satisfied with our choice, we take them back.
Other Information: All announcements from the Auction Stand take precedence over any other information written or oral. PHONE AND INTERNET BIDS accepted. For In Herd Semen Interests in Bulls announced sale day. WE ARE RESERVING THE RIGHT TO DRAW SEMEN ON ANY OF THE BULLS SOLD IN THE SALE TO BE USED IN OUR OWN HERD ONLY. THIS WOULD BE DONE AT OUR EXPENSE AND BUYER'S CONVENIENCE.

ALL CANADIAN HEIFER CALVES AND BRED HEIFERS MUST BE PICKED UP SALE DAY OR BY DECEMBER 11. PLEASE MAKE ANY SPECIAL ARRANGEMENTS WITH OWNERS

For US Buyers: As long as the current USMCA remains in affect, there will be no tariff charges. It is our goal to get the cattle ready to export before year end.
At Buyer's request, we will provide all health, customs and brokerage papers and delivery of the cattle to US SIDE OF SWEETGRASS MONTANA. Trucking from that point will be the buyer's responsibility. Help with arrangements for trucking to final destination is available. *Note if you want us to do your paperwork, you must provide your IRS number sale day.

ALL LONG YEARLINGS MUST BE PICKED UP SALE DAY OR WILL BE DELIVERED BEFORE CHRISTMAS. $250 DISCOUNT PER BULL WILL BE DEDUCTED FROM THE PURCHASE PRICE, IF THE BULLS ARE PICKED UP SALE DAY.

WINTERING: ONLY BULL CALVES WILL BE **WINTERED** until March 1. Please talk to Grant if you would like this option. $100/month will be charged after MARCH 1, BUT BULLS MUST BE PICKED UP BY APRIL 30.

Best place to buy beef does it the old-fashioned way

By Amy Jaquish

Staff Reporter

AMY JAQUISH/Western Wheel

Grant Hirsche (right) poses with his staff at Hirsche Fraser Meats on Southridge Drive in Okotoks

Those in search of a good steak or roast need look no further than Hirsche Fraser Meats, which topped the Best Place to Buy Beef category in the 2026 Readers' Choice Awards.

So, what makes the Southridge Drive butcher shop the best?

According to Grant Hirsche, owner of Hirsche Fraser Meats, there are two reasons.

The first is genetics.

"My number one goal for over 50 years is to raise purebred cattle. We sell cattle all over the world. We just came back two days ago from Armstrong, B.C., where we were showing cattle, and we had a grand champion bull and a grand champion female," explained Hirsche. "In December, you will have a sale and bring people from all over the world; they'll have people from Ireland and Denmark that'll come, and they buy our genetics."

Second is because of its old-fashioned way of doing things.

"I wish in some ways we were more sophisticated, but if we are, we're going to lose our hands-on experience and our hands-on quality," Hirsche said. "Go to our cooler, and, I mean, meat is hanging there. You know, we take it, we process it, we hang it there for 21 days. That is the key, more than anything."

As the award is voted on by Foothills consumers, Hirsche wanted to share his appreciation to the community.

"Thank you. Thank you very much. We strive very, very hard to provide a product that is safe, that is great quality, and it is reliable... We can't be perfect, but we strive really hard, and if we're not perfect, we will do everything in our power to make it right," he said.

Thank you Noe & Family for keeping
our shop in GOLD Standard.

JUNIORS

HIRSCHE HEREFORDS
A SPECIAL OFFER FOR JUNIORS

One of our greatest joys in this great industry is watching our juniors grow and develop both in the breed and as human beings. We're getting to the stage of life where we need to slow down, but don't want to quit. So, we decided to have this Elite female reduction sale. We are a Heifer Lottery sponsor, plus with Bonanza 2027 being 30 minutes from our friends and associates, Little Fort Herefords, it gives us a unique opportunity for the timing of the sale. We decided to sell our top heifer calves and bred heifers instead of our mature cow herd. If you buy a heifer calf or a bred heifer from us, we will keep them here and get them ready for Bonanza. Also after Bonanza, if the bred heifer you purchase has a good calf and you want to sell it, we will put it in our fall sale and share the revenue with you.

If a junior isn't able to buy a heifer from either us or Little Fort Herefords, you can make arrangements with us & we will make sure you can show one from either their program or ours. No Junior should be left out if they have a desire to come and participate in Bonanza 2027. Little Fort is also allowing us to take all of our Bonanza cattle to their rand well before the event. All juniors participating in this offer are encouraged to come with us to Little Fort Ranch a few days before Bonanza to help and work with these heifers and 2 year old pairs so they can be familiar with the cattle and enjoy the experience more.

Homo Polled
Owned with Upstream Ranches and Little Fort Herefords
It's been a long time since we've used a bull that we like so much. He is breeding even better than we had hoped. His calves the last 3 years have been outstanding. This year's calves are equally as good. They are features again in this sale. They are big, power cattle with great pigment, big testicles and his daughters have perfect udders. His EPD profile is outstanding and keeps getting better. Trait leader for yearling, FMI (204.3) PWG (48.3) REA, Marbling, & Carcass Wt. His dam is one of the best producing cows in the Upstream and Sandhill operations. She's got a perfect udder and lots of milk. Insight will fix EPD #s as quick as any. But more important, his daughters are the kind we need. They are truly outstanding. Both Little Fort and us believe he is one of the best breeding bulls we've used for a long time. His son, Marco will be one of the best show bulls we've had for awhile, but look at his offering as well. As a group our Marco calves are #1. If you can, get an Insight daughter. They will be one of your best females.

POLLED We used this guy again this year cause of low birth, high growth and lots of pigment and outstanding body type. He's a trait leader in weaning, yearling, Milk, TM, cow fertility, udder suspension, teat size, MPI, PWG and Marbling. Pretty impressive. Plus he will add pigment and dark color as well as any. Really a top outcross bull in Canada with great EPDs. Calves at birth are super small and now are some of our heaviest. The heifers are the kind I really don't like to sell. We are using 2 of his sons and they have calves in the sale.

Desperado son. Owned by High River Colony.
Polled This is a Desperado son we sold to High River Colony 2 years ago and kept an in herd semen interest. His offering is truly some of our top. 2 of his sons will be at the Hardsty Bull Calf Futurity. His dam, 154J is a top producing cow owned with Apple Lane. She has always produced well and has progeny in this sale. Lot 148 and 150 are 2 of 13M's feature herd bull prospects. They are all marked well with great pigment and huge growth.

POLLED Owned by Randy Wagner.
Another Desperado son that we own with Randy Wagner. We used him on heifers with great results. He has a great EPD profile with 17 traits on the right side of the graph and 12 in the top 25%. We really like his calves. Used just on heifers, but several will be features with a daughter Lot 39 (24P) that I rank in the top 1 or 2. 21M has lower birth with great growth.

POLLED One of the new proven sires that is gaining popularity. He was 2021 Grand Champion Polled Hereford bull at Reno and Champion Spring Polled Bull at Cattlemen's Congress in 2022. Yes, he also has carcass. REA and Carcass Wt. 1%. Marbling 17%. Full pigmented, short marked of white. Has the phenotype to be a show champion and still a carcass bull. Not easy to do. In our program, we really like his progeny. They have class, style and lots of power.

1.3	1.3	0.52	0.45	77.1

POLLED This is a true breeding herd bull. It's really easy to find his progeny. They're all the same type with his stamp. We love his daughters, but maybe his sons are better. Don't know if we've used a herd sire that's so strong with both sexes. Pretty impressive. Can't hardly wait to get more of his daughters in production. He was purchased out of MJT sale partly on the strength of this mother. MJT are also using a flushmate. Really good EPDs on maternal and carcass. He's top 1% for scrotal, RFI and FMI. Top 3% for marbling and carcass Wt. And still 39% REA. His progeny speaks volumes on his worth. He adds pigment and takes off white as good as any bull we've used. Last year's top seller was his son that sold to Poor Boy Herefords. This year, several of his sons are feature herd bull prospects again.

1.3	1.4	1.17	0.11	105.3

POLLED Owned by Kim and Parker Davis. Great herdsire with great EPDs. Top 1% for REA, carcass wt. And weaning growth. He's top 6% for yearling as well. TM top 15 and scrotal top 25%, but most important are the calves he's siring. One of the most successful show heifers last year and one of the top sellers out of the Red Deer showcase, raised by Kim and Parker, was his daughter. They have another one this year, doing very well. He has several daughters and sons in this sale and they are outstanding. Think they are the right kind. Copperstone has now proven his breeding value especially on the female side in our program.

HOMO POLLED This guy is probably the best carcass and EPD bull we've used for a long time. His is a trait leader in 9 categories. Growth, TM, SC FMI, PWG, REA, Marbling, & Carcass WT. His Milk, Teat and Udder scores are also in the top 35-40%. He excels in all areas that I emphasis the most. If you find him in a pedigree it's a big bonus. Wish we had more of his progeny especially his daughters.

HORNED 343L was our new horned bull we purchased from Dallas Farms in 2024. He is a different pedigree for us. His dam is one of Brad's top cows. He's got tons of growth and power and extremely deep. Big footed and great set of testicles. You can see his stamp on his progeny. All with growth, hair and good pigment, but his depth of body shows more than anything. His calves will be a great outcross on our horned side.

HORNED Jaxon was purchased at the 2022 Calgary Bull Sale as Dallas's high seller. He's big, dark with lots of pigment. This will be the third crop of his calves. Over these last 3 years, he's proven every year to be one our growth bulls. Last year's high seller and top REA bull, 139N was purchased by Little Fort. We bought 1/2 back to replace Jaxon. He's our biggest growth bull and will be shown this fall. Another one of his features this year is a top heifer calf Lot 80 (25P), and she will also be in our show string this fall. You will see this great breeding bull's influence in our program for years. This is maybe his best group yet. Love the size and pigment he passes on, great growth, REA & RFI EPDs as well.

POLLED When it comes to bulls, Annette & myself are not ashamed to say Marco is our favourite. Maybe it's because he's owned with our granddaughter Autumn and she showed him on his mom 2 years ago with us. Jut look at his EPD profile, 17 traits on the right side of the graph. He has huge milk & maternal numbers with great udder and teat score, but look at his dam. Arguably the #1 cow we've raised. Her class & style is exceptional and she passes it onto her progeny. Her other son "Grad" is by far the best young herd bull prospect we've offered for sale for years. He sells as lot 117 (4P). We've loved Marco for the last 2 years because of his disposition, length, power, and his dam 16J, plus his sire is Insight. Now, he is passing all this goodness onto his progeny. They are our over all top sire group. Only has one heifer calf, but she's a feature as well. We will be showing a least 3 of them this fall.

16J & Marco 7M at IPE

16J & Marco 7M at Agribition

Marco as a yearling champion

POLLED.

Owned by Maple Dale Farms. Grandson of SHF FORESIGHT

I purchased 42L from Piechel Farms as a heifer bull. He has far exceeded every expectation I had of him and cementing himself as a cornerstone Herd sire. He is a true carcass bull that calves easy, has good growth, exceptional feed efficiency, strong maternal qualities and a great disposition. 42L is top 1% of the breed for REA and it shows in his progeny with the width of top and muscle he adds. Top 5% RFI, top 10% SCF, top 15% MPI top 30% SC and carcass Wt. He adds style, pigment and good hair. His bull calves are dense made packed with muscle and have huge tops and all show early maturity. His daughters are fancy, moderate, broody and show excellent udder development. 42L is one of the very few progeny born in Canada whose dam is out of Miles McKee, the Supreme Grand Champion Hereford bull at Denver 2014 who sold for the record setting price at $600,000.

POLLED This is the kind of cow we've been trying to raise for 45 Years of breeding Herefords. Truly the best we've raised. She's big, really thick, extra deep and really classy and with NO extra feed. She is familiar with the show ring being a champion herself including Supreme over all breeds at IPE and qualifying for the Supreme show at Agribition. But even more impressive is her ability to produce even better than she is. All of her calves have been features 3 of them have been super stars. Marco is our top herd bull and now our 2 top calves for 2026 are both hers. Feature calf lot 110 and feature heifer calf lot 4.

POLLED Insight Daughter
Only in a sale like this, is there an opportunity to get a heifer from the heart of a breeding program. We can't guarantee her show career, but I'm pretty sure she's got a great chance to be a donor cow in the feature. A full sister to Marco and maternal sister to "Grad" 4P Lot 117. This is why we flushed 16J to Insight. We love our Insight daughters and just think what Jewel will add to this combination. This is the first and only daughter, so far out of 16J and she's a great one. Don't miss this one. These chances don't come along every day.

FEATURE 16J HEIFER CALF SELLS LOT 4

Avergage 20 eggs per Flush. FA 134Z Britisher Lady 28B
STRAIGHT HORNED PEDIGREE
If you have followed our program for the last few years, you will recognize this cow. She excels in some of the traits that really matter. Low birth, Maternal calving ease Udder and Teat score of 3% and 4% respectively, plus Longevity and pigment and she passes it all on to her progeny.
Every one of her daughters has a perfect udder. The more daughters we get, the more we like 28B. Her udder and feet are still perfect and she is 13 years of age. She also continues to be our #1 donor producer. That is fertility! You get one of her daughters, count it as a great day. Her embryos are becoming more valuable to us every year. 28B will be one of our most influential cows for the next few years.

HORNED Our new Herdsire owned with Little Fort, Chad Stephenson, Billy Fambro and Cooper Herefords. It's hard to find a straight horned bull this good, marked right with a powerful dam to back him & EPDs that are second to none. 5228 has all this and more. Scrotal at 2.0 top 2%, Milk 33, weaning 75, YW 115, REA at 0.85, Marbling 0.45, but his top 2 numbers are 531 for BMI and 203 CHB. This guy will play a huge role in our program for years. We used him hard this spring and have several sets of embryos in the sale. These will be some of the first to sell out of this exciting young sire. One of the partners on 5228
Our partner Milligan Ranch runs 2000 cows and wanted to own part of this great one. It's exciting for us to have a bull with EPDs like this and still the kind ranchers love.

HORNED Average 20 eggs per flush. GH 150A Lady Bess 418H
We love 28B, but I think in five years, we will all agree this daughter, 418H is every bit as good as her dam 28B. She is a frame score bigger than her mother and has more performance and passes these traits on to her progeny. One of our biggest feature heifer calves in last year's sale sold to Chad Stephenson, Salmon Idaho. Her son this year 63P. Lot 167 is a great one and will be used as a herd bull in our program. Embryos selling out of her and our new Cooper bull (d'Mark 5228) will be a highlight of this sale. Hard to find a horned cross this good.

POLLED. Raised by Peter Martin of Eagle Spirit Ranch.
Probably our very best Insight daughter going back to our great 171Z cow. Her dam was a 171Z embryo Peter Martin purchased from us. 160L has a perfect udder & was shown last year with feature bred heifer 158N. We flushed her this spring twice. She produced well. Great set of EPDs with 13 traits on the right side. This will be one of our top Donor cows in the years to come. She's big, super deep with perfect udder and pedigree second to none. Chance to get some of her first embryos. She will make an impact in any herd.

Lot 60 and her bred heifer Lot 29 at Agribition 2025

POLLED. Daughter of donor cow 160L.
This is one of my picks as a 2 year old to be shown next year. She was Junior Heifer Calf Champion at the Alberta Hereford Showcase last fall. Moderate, but extra thick with tons of muscle shape. Like her dam, she has 13 traits on the right side of her EPD graph, only a 2.9 birth and still both growth traits above breed average.

HORNED. Owned with Apple Lane Farms
A 171Z granddaughter that will be a great show heifer next year and a great cow after. Her dam never misses. She's had 4 daughters and all are here or at Steve Wilson's in Ontario. She's big and deep and has a great udder. This one will be one of the good ones to sell. 49P's Maternal sister also sells in the sale Lot 36, 99M. 49P's Marbling is in the top 18% of the breed.

HORNED. 171Z Granddaughter

A 171Z granddaughter and maternal sister to Lot 35, 49P. Just look at her udder and the calf she's got along side. This is not only a near perfect 2 year old, but has the pedigree to match. This is one we will see down the road. She's sure to be a great buy. Her heifer calf, 19P has always been one of my picks. Her Paternal Grandmother was a show heifer for Max Stotz that we brought to Canada. Add her maternal with that of our elite 171Z and I like the chances this she will show well as a Bred Heifer next year. Then after her show career, she will be a great addition to your cow herd.

POLLED. Sire INSIGHT
One can build an entire program around this heifer. She's that good and bred that way. Insight out of one of our best producing cows. 4 Feature sale cattle in a row. Her first calf, 78L is a top cow at Apple Lane in Ontario. Then last year, our second high selling bred heifer sold to Dawson Dallas. He sent her to us this fall to have her shown in Red Deer and sell her bull calf as a feature lot 142, 600P. Then she had this heifer, 85N. Maybe the best of the lot. Her next calf is also a feature, selling as Lot 141 6P. All 4 of her calves have made the show string, including this one. If had to bet on one of these features to come back and be a powerful show pair next year, it's 85N.
Breeding info:
AI April 6 to 613H

POLLED Owned with Keith Wilson.
Could be one of the best heifer calves we've sold for years. Not many 315Y direct daughters left to sell, but this is a granddaughter out of a 315Y daughter that I believer will take the place of her mother. The dam, 26M will be shown this fall with 24P at her side. This is my kind of pair. 26M is well marked, deep and long, with power to raise herd bulls. She has had no extra feed, but is still fat and raised a calf like this one. 24P is like 26M, but with big red eyes and a little more feminine. She's also extra deep and has a great disposition. She will be fun for a junior to show and work with next summer.

POLLED Lots of special features in a sale of this magnitude, but this is truly one to rank at the top. A direct daughter out of 315Y and then Elijah. This is a great mix of power from her dam and carcass and EPDs from her sire. Don't miss this one. Sure not many more 315Y direct daughters. This will be the hardest for me to let go.

Watch for new pictures of 81P Lot 41 on the website.

BRED HEIFERS

Breaks my heart to sell this group of bred heifers, all bred to some of the newest, most exciting young bulls in Canada and yes they are all marked perfect with lots of pigment and carcass traits. Maternal is # one. This is truly an exceptional group. Take note of their udder and teat placement. Many are ET calves.

HORNED Have a look here. This heifer is a 7/8 sister to 46P. 613H assures great udders and being a 315Y granddaughter assures breeding power. Marked perfect with lots of pigment and even better EPDs, then 46P. In fact might be one of our best bred heifers on paper. 15 traits top 50% with 11 of them top 20% and 7 top 10%. This one has it all.
Breeding Info:

POLLED. This is maybe the best all round heifer, Phenotype, pedigree and EPDs. She excels in them all. One of our biggest and shows as much 315Y characteristics as any. This is my kind. She will raise you herd bulls. Sires is 613H and his daughters are proving to be some of our best. 46P's EPDs are second to none with RFI in the top 1%. She has pedigree, and EPDs, but she will also show really well especially as a 2 year old. Her udder development looks to be tops with lots of milk. Her dam was on the show road, so it is in her genetics. Watch for this one to carry on the 315Y tradition.

One thing about a sale like this one, there's a lot of top ones to pick from. This girl ranks at the very, very top. Her dam is only a 3 year old and has produced 2 great ones. Her first is a herd bull, 93N that Kevin Aitken bought in our sale last year. Some of the bred heifers carry his service. Great teat and udder score with tons of growth. Both growth #s in top 5%. An Elijah granddaughter with the style and class for the show ring.

Herd Bull Owned with Kevin Aitken

SPECIAL CONSIGNMENT LOTS FROM MAPLE-DALE FARMS

Fellow Hereford & Commercial Cattle Breeders,
It is with great excitement and enthusiasm that I help welcome you to the 2026 Hirsche Herefords Bull and Female Sale. It is truly an honor to contribute alongside Grant & Annette and fellow consignors to this prestigious Hereford sale event. Hirsche Herefords are true leaders in the Hereford breed, always staying ahead of the curve and having an all encompassing view of the entire cattle industry, where it is headed, and how to improve it. They use every genetic tool to help evaluate and better their cattle all while focussing on helping youth and breed leaders to get a foothold in the industry. I am thrilled to play a part in upholding and advancing that legacy.
Maple-Dale Farms has been breeding Herefords since 1988. Our focus is high quality over quantity. My cow herd is scrutinized extremely hard and culled accordingly. Udder quality, balanced EPD's, carcass quality with added ribeye and marbling, has been sourced when adding new genetics to build on foundational traits like structure, docility, mothering ability, feed efficiency and production value. Over the last few years, the cow herd has been turned over, leaving me a young, exciting herd that are very solid, productive, foundational-type females, with a very high ceiling, genetically.
2026 is the start of a major milestone, huge transition, and long-time dream coming to fruition. This past spring, our cow herd was put to the ultimate test, and was moved across the country with their calves from Ontario to Hirsche's in Alberta. Needless to say, a roller coaster of emotions ensued. Scared and sad to see them going out the lane, but optimistic and excited as well. I was hoping and praying they'd make the trip safely, stay healthy and transition to a new environment, all while raising calves and rebreeding. I am extremely proud and grateful that things could not have gone better. The cows exceeded every expectation, settled in, bred back and raised some top quality calves, as evident in our sale offering. A heartfelt thank you to Grant and Annette for your care, dedication and work to take this on this year.
Our sale offering represents some of the best tried and true Hirsche genetics from notable cow families of 315Y, 253W, and 171Z, and sires Eclipse, Blockbuster and Sensation. As well, we are offering some fresh, exciting outcross genetics with added carcass, feed efficiency and excellent maternal values, backed by some top breeders in North America.
With Bonanza being held in B.C in 2027, I feel our offering of females can go out and compete for any Junior. Along with my fellow consignors, I look forward to helping and working with any Junior, to facilitate getting cattle to Bonanza. Again, it is an honour to be a part of this sale and I look forward to meeting you. If you can't make the sale, I am available to answer any questions you may have about the cattle on offer.
Kevin Aitken 519-321-9724 mapledalefarms@yahoo.ca

We are so excited to have Kevin & Nicole join our sale. They have an outstanding offering throughout the sale.

This is a big time show prospect who has been a favorite all year. A great prospect for a Junior to take to Bonanza next summer. Her dam 9L is very feminine, moderate cow with a gorgeous udder who is a big-time producer. Sired by Ice Box 42L who is top 1% of the breed for REA, top 5% for RFI and top 10% SCF. His maternal side is equally impressive with outstanding females backing him. Prairie Lily 5P is a complete breeding package. Sound, functional, fancy and has the carcass quality, feed efficiency and generations of excellent uddered dams to make her a breed leading piece in the Hereford industry.

Juniors take note, A mid-April heifer that is sure to catch your attention and a Judge's. Big red eyes, fancy fronted, sound, balanced and stout. Her dam is one of my favorites and is about as nice as you can make a cow. She has an extended front third with a smooth shoulder, lots of capacity and exceptional udder. She breeds more pigment than any cow I have. 23P will be one that could be exciting to show for several years and be foundational to build a herd around especially when you add in the carcass merit and maternal qualities from her sire.

The youngest calf in the sale but could be one of the best. Born May 4th, out of a powerful 2 yr old with a great udder. She is fancy fronted, yet very deep bodied and stout. The cows in her pedigree are all power cows. Deep bodied, broody, easy fleshing with great udder quality. 25P will be another in a long line and one that you will proudly display in a front pasture after she has competed hard in the show ring. 25P is a great prospect for Bonanza 2027.

MAPLE-DALE CHOICE LOT

Maple-Dale Choice Lot: MAPLE DALE LADY 42L NORA 12N or MAPLE DALE 34K LADY NYX 13N.
Owned by Maple Dale Farms. The dams of these heifers are full sisters, going back to elite sires Eclipse, Neon, & Churchill Sensation. These cows are top of my herd for production, efficiency and absolutely for udder quality. You will search far and wide for cows with better udders. Either Heifer will be an exciting choice and will be a heard builder type female.

POLLED. ICEBOX 42L daughter
Sometimes good things come in small packages. An April heifer that has always been very stylish, with a big top, good muscling and has 100% eye pigment. Her Dam is very feminine, long bodied with a picture-perfect udder and is producing one of our top bull calves this year. 22N has solid EPD's with high milk and good carcass. She will be a money-making type of female. Efficient to feed, raise a big fat calf and pay for herself in year 1.
Breeding Info:

HORNED. Calf of 142M

142M & 105P Owned by Dana Hirsche
Another great young 2 year old with a sweet 21M Heifer calf. 142M is a perfectly marked heifer with great carcass. This is only a June heifer and still calved early March. This will be a great buy. Well bred female. Dam is a great Cooper 767T daughter out of Stock Option. We can't get much more maternal than this. Heifer calf would show well and is marked like her mom.
Breeding info:
PE April 8 – May 20 to BCD 343L, then May 21-Aug 10 to GAH 86N

POLLED. Owned by Dave Dennis

Pricilla is the one you notice when you pull into the pasture. Her tremendous volume, clean lines and sheer size catches you every time. Her great Cooper Creek Mother has never let us down, consistently raising calves the purebred breeders search for.

Pricilla's full brother last year sold for $16,000 to K-Cow, the heifer before him sold to Hirsche Herefords and has a stout bull calf in this year's sale Lot 163, 15P, and the bull calf before that sold at the Showcase to Greg Hoar, plus 3 females retained in the herd. The proof is in the pudding with this cow. 601P would make a great junior project and has a genetic track record to produce high quality offspring year after year.

ARLO: Sire of Lot 70 601P

CCR 83E: Dam of Lot 70 601P

501N: Full brother of 601P
Sold to Kevin Wirsta, K-Cow Ranch in 2025 sale.

FEATURE HEIFER CALF PROSPECTS

Like our bred heifers, we're selling our best and offering our Junior Bonanza 2026 Program (see details on page 6. These represent the best genetics we can offer. We have many Homo Polled and Homo Horned in the group.

HOMO POLLED. Attention young Juniors, Disposition ****
This is our Feature "Princess" and she is definitely both very powerful and yet very eloquent. Her dam is one of my favorite cows. She produced my great "Buddy" bull calf last year that Stan and Susan Lock bought in our Dec sale. 17P has only been shown at one show where she was named calf champion and top 5 in the All Breed heifer futurity. This is one I would bet will not only show as a heifer calf, but great as yearling and excel as a 2 year old with calf. After show, she has the makings of a donor cow. Huge ribeye and carcass Wt. With top 5% yearling Wt and 12% weaning. This is the kind to be a feature in any sale. She's been picked by many as our best. Check her out. You won't be disappointed.

Maternal Brother "Buddy" 19N
Sold to Stan & Susan Lock in 2025

183J: Dam of 17P Lot 71

HORNED. Owned with Apple Lane Farms

There's a reason these are 2 of the first heifer calves on offer. Dam is a great one owned by Stephen Wilson of Apple Lane. She has had a great one every year including 13M herd bull that many of our features are out of including our top Horned calf Lot 148, 8P. 32P and 33P, (Peach and Pair) are true twins. Not sure which is the best. I just know both are 2 of the best and have big red eyes with perfect show hair. We will keep one of these for sure.

37N: Maternal Sister to 33P & 32P. Now at Apple Lane Farms

POLLED. A direct daughter from Desperado. One I like a lot. She is packed with maternal traits with her dam being our matriarch and Donor cow, 253W. She has a great set of EPDs, both yearling & weaning top 20% with milk
top 18%, teat score top 20%. Great RFI and Marbling as well.

POLLED. Not sure how you would change this one. She's big, thick, deep and still feminine. Marked perfect with good feet and legs. She dam is a great one & has never missed. Her calf this year is a feature lot 152, 42P. Her calf 2 years ago was our top selling female to Curtis Rasmussen, Utah. This one will show next year as a 2 year old. She's got great EPDs as well. Carcass traits all in the top 20%.

POLLED. Probably the showiest Elijah daughter we have. She is really well balanced with class, style and lots of power. Dam is a great cow with these same traits. Nice EPDs especially on the carcass side. Top 3% for marbling and 5% carcass Wt. Fat & REA is good also Dam is a top producer with Lot 171 50P in this sale. Another daughter is 9L that was purchased by Kevin Aitken and was shown with her calf at 2025 Bonanza. 20N could follow in her sister's footsteps.

2 great 613H daughters with tons of potential and both have lots of pigment.

119N's dam is an Insight daughter with a great udder and has a top sale calf Lot 174,28P. 115's dam has top heifer calf 66P. She is a direct daughter of Newton's 10A. Both are top cows. Both of these females have high milk numbers of plus 31. 115N excels in marbling being in the top20%. 119N has steady numbers especially in carcass traits with marbling, REA and carcass Wt all top 30% and marbling top 20%. Top FMI, RFI and Scrotal top 5%.

These bred heifers will be herd starters or make a significant contribution to an established program.

HORNED. 141M & 104P Owned by Dana Hirsche
Here is another great 777H daughter. 777H is a bull brother to Block Buster. One of the few cows to sell today with horns. Maybe the best bred heifer 170N lot 99, is a maternal sister. Grandmother 35W was one of Andersons top cows. Great maternal, growth, teat size and REA. This will be a buy for sure. She has a superb heifer calf that is better than mom. I'm guessing she will surpass all expectations as a yearling and 2 year old. Pretty sure she's wearing a halter next year.
